

The following are updates on MHMRCV programs:

- The Center's IDD Day Programs and the San Angelo Clubhouse will remain closed through May 4, 2020, or until further notice.
- IDD Service Coordinators will begin providing contacts & coordination via their phones from their homes on Monday; with the exception of a "skeleton crew" remaining at the Center.
- IDD Group Homes are being staffed 24/7. Visitors are limited. Everyone (visitors and staff) are screened, including taking temperatures before entering.
- The Mobile Crisis Outreach Team continues to provide crisis screenings with a heightened awareness of preventative actions to stay healthy.
- MHMR Crisis Respite remains open utilizing Center-wide health/safety precautions.
- The IDD Dual Diagnosis Clinic, Adult & Children's Mental Health Clinics continue to provide services utilizing the Center's Medical Director's Safety Protocols.
- The Adult Outpatient Clinic and the Family Youth Guidance Center will limit the number of people entering the lobbies of each facility. Staff will utilize the Patient Health Screening Tool and associated algorithm for service provision as a person comes in the door. Patients will be asked to wait outside or in their car (considering the weather) until a staff notifies them that it is time to see their provider.
